

Sprint [5] UI Prototypes

US005: Financial System:

As a condo management company, I want to set condo fees per square foot and per parking spot in the financial system. As a condo owner, I want to view and understand the calculated condo fees and access annual financial reports.

Financial System Landing Page

Fees Setting View

Condo Owner View

Steps:

1. As a condo management system, there's access to the property page and a tab for financial system where condo, parking spot, and operation fees can be set.
2. As a condo management system, you can press "Set Fees" to set fees.
3. As a condo management system, you can enter the appropriate fees.
4. As a condo management system, you can confirm the entered fees and confirm their entry in the system.
5. As a condo owner, you have a view of the condo fees for a unit as well as parking spot fees, and the ability to view further details of those fees.
6. As a condo owner, you can view the annual report for your unit.

US011: Discounts and Offers:

As a condo management company, I want to list coupons/offers visible to all unit owners or rental users of one property. As a condo owner, I want to be able to cash-in listed coupons/offers to get their benefits
